Professional Summary:

A highly skilled, full stack (front end and back end web design and web development) and results-driven Software Engineer with over a decade of experience in full-stack web development, encompassing front-end technologies like HTML, HTML5, CSS, CSS3, JavaScript, ES6, jQuery, TypeScript and React.js, as well as back-end technologies such as Node.js, PHP, Python and APIs. Proficient in utilizing various databases including MySQL, PostgreSQL, and MongoDB. Adept at developing scalable and maintainable applications (microservices architectural designs), with a strong focus on clean code practices and test-driven development (TDD) and Behavior-Driven Development (BDD). Experienced in defensive coding and software security measures. Familiar with Docker CLI, Kubernetes CLI (Kubectl), and DevOps principles. Excellent verbal and written communication, with high level concentration and dedication, with attention to details and teamwork abilities, with a proven track record of delivering high-quality applications under tight deadlines.

Professional Experience:

Software Instructor
M-R INTERNATIONAL NIG. LTD.
Port Harcourt, Rivers State, Jan 2023-present

- Conduct training sessions on various web development technologies, catering to the most valuable trainees of M-R INTERNATIONAL, including Industrial Training (IT) professionals and interns from esteemed universities.
